

I would simply like to say that I do not support yesterday's decision to expand media ownership opportunities in the country, nor do my family (5 of them), nor do any of my friends. While I know that not everyone I am close to will email you, please know that I am representing about 60 people who absolutely feel the same way as me.

I hope this will go to a vote in the Congress so that the American people's voice can be heard.

R. Makar
